CAREER OBJECTIVE

Motivated Full Stack Developer with hands-on experience building end-to-end web applications using the MERN stack — MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive front-end interfaces, secure back-end APIs, and integrating authentication and payment systems. Seeking a junior Full Stack Developer role to deliver complete, real-world solutions while continuously growing technical expertise.

TECHNICAL SKILLS

Languages: JavaScript, C, C++

Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Authentication & Payment: Better Auth, Stripe

Libraries/Frameworks: React Router, Recharts, HeroUI, DaisyUI

Tools: Git, GitHub, VS Code, Vercel, Postman

Other: REST APIs, CRUD Operations, Responsive Web Design

Soft Skills: Problem Solving, Teamwork, Communication, Time Management, Quick Learning

PROJECTS

ReBazaar — Second-Hand E-commerce Marketplace

Project Type: E-commerce / Online Marketplace

Full-stack marketplace for buying and selling second-hand products with authentication, product management, and online payments.

- Developed product listing, search, filtering, wishlist, and order management.
- Implemented separate buyer and seller functionalities with authentication.
- Built REST APIs and CRUD operations using Node.js, Express.js, and MongoDB.
- Integrated Stripe for secure online payments.
